TENTING

for enjoying the outdoor air

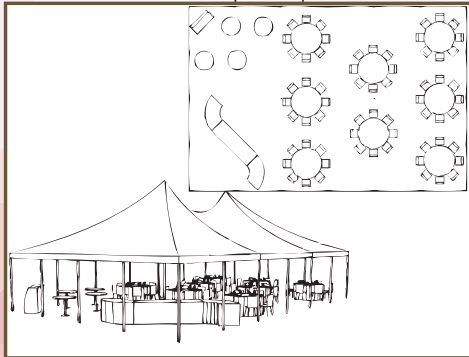

POLE TENT:
 anchored to the ground by staking ropes from tent poles. Tent does have interior center poles. Used for grass, can also be drilled and staked into asphalt for an additional charge.

FRAME TENT:
 self supporting. No center pole. Secured by tent weights, or staking into ground. Used for patios, asphalt, concrete and grass.

DANCEFLOOR

Installation Info

Rarely do more than 50% of guests dance at any one time.
 On average, each couple requires 8 sq. ft. of room, or 4 sq. ft. per person.
 If dance floor sizing impedes on the square footage your tent has to offer, consider either upgrading the size of your tent, or using the dance floor for buffet and cake tables, which can later be removed before your band or DJ begins.

All Rates Include Installation.

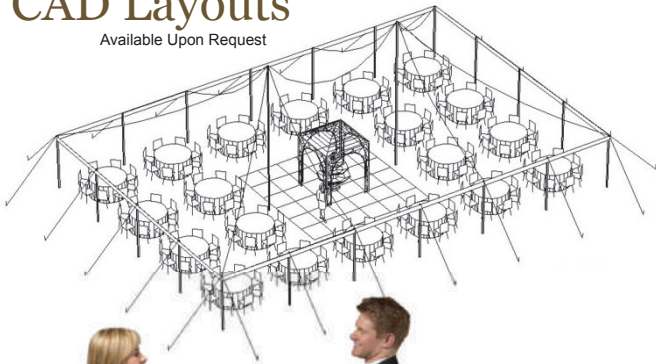

All panels are 4' x 4' and have 16 sq. Ft. of surface available for dancing.
 All dance floors comes complete with beveled trim.
